Contents of Volume 11

PERCEPTION AND PERFORMANCE

PERCEPTION AND PERFORMANCE

- Predicting with intuitive correlations by C. W. Gray, 41
The probability of an event and estimates of posterior probability based upon its occurrence by C. F. Gettys and C. W. Manley, 47
Forced-choice technique: Inter-alternative comparisons by W. H. Watkins and H. J. Clark, 351
Higher order experimental designs viewed as developments of the one-way analyses of variance by P. L. Van Houten and M. F. Zwosta, 361

VISION

- The effect of movement on the perceived brightness of chromatic afterimages by J. G. Seamon and L. W. Teft, 43
Judged complexity as a function of schema related variables by S. H. Lane and S. H. Evans, 45
Retinal rivalry and Troxler's effect by A. G. Goldstein (Vol. 7, p. 427)
 Comment on Goldstein: Retinal rivalry and Troxler's effect by B. Kirkwood, 54
 Reply to Kirkwood by A. G. Goldstein, 54
Effects of an artificial pupil in visual perception by D. L. Schurman, 57
Surface and volume judgments of three-dimensional shapes by R. J. Stanek, 121
Measurements of Troxler's effect by D. B. Poe and H. F. Crovitz, 123
A sex difference in the recognition level of words by L. A. Messé, P. R. Chisena, Jr., and R. H. Shipley, 131
The effects of situational and personal variables on vertical autokinesis by M. Worthy and G. Kahn, 144
The effect of short-term sensory restriction on the tachistoscopic recognition threshold by S. L. Milstein, D. Oleson, and J. P. Zubek, 193
The effects of stimulus density on orientation specific aftereffects of color adaptation by L. W. Teft and F. T. Clark, 265
Visual beats: Phenomenology and preliminary data as a function of age by R. Karrer, 269
The vestibular hypothesis of the moon illusion by R. J. Wood, P. W. Zinkus, and P. T. Mountjoy, 356
Cortical potentials evoked by the onset and the termination of foveal stimulation by N. R. Bartlett and C. T. White, 357
Vision and lasers: An abstract by W. L. Makous and J. D. Gould, 358
Figural aftereffects, illusions and the dimension of field dependence by A. Pressey and G. Koffman (Vol. 10, p. 279)
 Comment on "Figural aftereffects, illusions and the dimension of field dependence" by L. Immergluck, 363
 A reply to comments on "Figural aftereffects, illusions and the dimension of field dependence" by A. W. Pressey, 364

HEARING

- Estimated duration of an auditory signal as a function of its intensity by I. Zelkind and J. Uehla, 185
Effect upon auditory interval discrimination by perturbations in the nanosecond region by I. Pollack, 189

PERFORMANCE

- Cross-modality effects upon choice reaction time by L. K. Morrell, 129
Color-word performance as a joint function of manifest anxiety and stimulus conflictfulness by K. R. Gamble, 187
Performance of lower- and middle-class children on a discrimination reversal task by S. Dietz and J. W. Johnson, 191
Dissonance arousal, task evaluation, and task performance by M. S. Pallak and C. A. Kiesler, 197

- Children's response speed as a function of delay of reward at different distances from the goal and incentive value by A. A. Sheikh, 201
Dream time and real time by D. Koulack, 202
Inter-trial response strategy in operative time estimation by M. J. Ellis and M. G. Wade, 203
Low intensity conflict by C. W. Deckner, 204
Thresholds of control-display lag as a function of display movement rates by J. A. Steger and H. Sherman, 267
Cardiac response to mental arithmetic under quiet and white noise distraction by W. G. Steele and P. B. Koons, Jr., 273
A longitudinal study of the cardiac response during a problem-solving task and its relationship to general cognitive function by W. G. Steele and M. Lewis, 275
Vigilance throughout seven days of sensory deprivation by E. Johnson, III, S. Smith, and T. I. Myers, 293
The influence of two varieties of proprioceptive information on judgments of the spatial position of an object while the visual input is transformed by G. Singer, 295

PREFERENCE

- Preference for different visual stimulus sequences in children, adolescents, and young adults by P. B. Baltes, L. R. Schmidt, and E. E. Boesch, 271
Response technique as a factor in determining children's preference for complexity by D. W. Kaess and M. W. Weir, 367

HUMAN LEARNING AND THINKING

REINFORCEMENT

- The effects of calling "right" and "wrong" on neighboring response by A. B. Carran, 125
Operant reinforcement of a skeletally mediated autonomic response: Uncoupling of the two responses by R. J. Gavalas, 195
Probability learning as related to the response format used by L. J. Kazmier, 199
Effects of alcohol on the partial reinforcement effect by A. Taylor, R. Lehr, D. F. Berger, and C. A. Terry, 371

LEARNING

- The relative crossmodal transfer of a form discrimination by R. Eastman (Vol. 9, p. 197)
 Erratum, 46
Analysis of discrimination reversal learning in children by R. M. Vaughter, 49
The preceding item as cue for a response in serial learning by B. McKeever, 51
Associative and perceptual dominance in compounding stimuli by I. Zakhour, Z. I. Youssef, and M. Dosey, 53
Concreteness without imagery in PA learning by J. C. Yuille, 55
Experimental modification of the lag between perceiving and performing by H. L. Bee and R. S. Walker, 127
Monitoring eye movements during the learning of noun-pairs involving four combinations of stimulus and response concreteness-abstractness by P. D. McCormack, W. E. Fingus, K. M. Haycock, and T. E. Moore, 133
Intrapair and interpair associations in verbal discrimination learning by E. Eberlein and D. C. Raskin, 145
The interaction of social class and type of reinforcement in discrimination learning by M. A. Safer and L. B. Kornreich, 206
Shift behavior in naive and sophisticated children by A. Saravo and E. S. Gollin, 210
Integration of word pair responses in paired associate learning by P. Greenhouse, 223
An experimental demonstration of learning without awareness by L. W. Buckalew, S. H. Finesmith, and D. A. Sisemore, 277
Good and poor readers' learning of verbal and pictorial paired-associate lists by W. Otto, K. Koenke, and C. Cooper, 347

MEMORY

- A note on long-term recognition memory for pictorial material by R. S. Nickerson, 58
- Two kinds of short-term memory and the serial position effect by S. Breskin, 65
- Effects of association value of trigrams and ITI on short-term memory by F. C. Leeming, 67
- Overcoming interference in short-term memory through distinctive mental contexts by G. S. Blum, J. R. Graef, and L. S. Hauenstein, 73
- The influence of perceptual organizing responses on recall by W. F. Harley, Jr., C. O. Wilson, and R. A. Cole, 135
- Why are pictures easier to recall than words? by A. Paivio, T. B. Rogers, and P. C. Smythe, 137
- Remembering pictures vs remembering descriptions by K. Dallett and S. G. Wilcox, 139
- Recall latencies of highly overlearned items by N. C. Waugh and E. C. Holstein, 143
- The effects of sentence structure on the recall of low frequency words by W. L. Porter, 152
- Measuring verbal recall. II: The ITR score expressed as a ratio by J. F. Fagan, III, 205
- Immediate recall of nominalizations and adjectivalizations by J. Briem and K. Loewenthal, 209
- The structure of order error in the build-up of proactive interference in short-term memory by M. T. Turvey, 213
- The effect of list difficulty on item difficulty using the method of stimulated recall by E. A. Bilodeau and M. A. Murphy, 215
- Priming and the retrieval of names from long-term memory by R. H. Hopkins and R. C. Atkinson, 219
- Forward and backward associations in RI-PI differences by M. S. Lindauer, 221
- The generality of free-recall: I. Subjective organization as an ability factor by D. S. Gorfein, C. Blair, and C. Rowland, 279
- Verbal transfer in repaired paradigms as a function of S_1 - R_2 and S_2 - R_1 similarity by R. F. Shouldis, Jr., 281
- Positive transfer of familiarization training to recognition performance: Effects of stimulus complexity and association value by R. H. Price and R. Hill, 283
- The effects of syntactical violation and practice on the free recall of verbal materials in children by L. W. Lezotte and J. L. Byers, 285
- The effect of syntactical violation upon the recall of form class by D. L. Anderson and J. L. Byers, 287
- Clustering with two-word stimuli each composed of a categorized and a noncategorized word by B. S. Musgrave and S. Allen, 289
- Recognition of recalled and non-recalled items by D. W. Packham, 291
- Subtraction as interpolated activity in short-term retention by D. Marcer, 359
- The relative crossmodal transfer of a form discrimination by R. Eastman (Vol. 9, p. 197)
- Comment on "The relative crossmodal transfer of a form discrimination" by H. Lobb, 360
- Reply by R. Eastman, 360
- Short- and long-term retention of affectively varied modeled behavior by D. J. Hicks, 369

VERBAL PROCESSES

- Hue discrimination related to linguistic habits by J. Kopp and H. Lane, 61
- The letter span in space and time by J. W. Mathewson, Jr., J. C. Miller, Jr., and H. F. Crovitz, 69
- Averaged evoked potentials to classes of visual stimuli by H. Weinberg and R. E. Cole, 71
- Effect of mode of presentation on semantic satiation by H. L. Baras, 345
- The associative basis of verbal organization: Some leads from a study on category clustering by R. L. Hudson, 353
- Standardization of Mexican trigrams by R. K. Young and A. Webber, 354

PROBLEM SOLVING

- Effects of increasing success and failure on perceived information quality by S. Streufert and C. H. Castore, 63
- Schematic concept formation as a function of constraint redundancy and knowledge of results by B. R. Brown, D. W. Walker, and S. H. Evans, 75
- Hypothesis sampling in conjunctive concept identification by I. D. Nahinsky and F. D. McGlynn, 77
- The effect of letter frequency on anagram solution times by J. L. Cohen, 79
- Higher-order dimensions in concept identification by M. Schlag-Rey and P. Suppes, 141
- A learning set procedure involving circular triad problems by M. Goldstein and S. M. Fox, 151
- Additive composition by normal and retarded children of matched MA by D. L. McManis, 207
- Satiation of a verbal cue in problem solving in French speaking children by H. Cook and J. Vachon, 208
- Noncontingent reinforcement and certainty by F. D. Hilf and B. S. Kopell, 211
- The effect of simultaneous and successive presentation of information processing training upon concept learning by J. L. Dunham, D. D. Blaine, and M. B. Reeve, 217
- Information seeking strategies in cognitive development by K. R. Van Horn and W. H. Bartz, 341
- Developmental aspects of three dimensional concept attainment by D. R. Stone, 343

SOCIAL PROCESSES

- Classical conditioning of attitudes as a function of number of persuasion trials and argument (UCS) strength by R. F. Weiss, L. M. Chalupa, B. S. Gorman, and N. H. Goodman, 59
- Attraction toward a stranger as a function of direct and associated reinforcement by W. B. Griffitt, 147
- Start effect and response bias in the prisoner's dilemma game by J. T. Tedeschi, D. S. Hiestler, S. Lesnick, and J. P. Gahagan, 149
- Effects of stress, communication relevance, and birth order on opinion change by R. Helmreich and J. Hamilton, 297
- Differential weighting and directed meaning as explanations of primacy in impression formation by A. Tesser, 299
- Discrimination of outcomes in a prisoner's dilemma game by J. T. Tedeschi, D. Aranoff, and J. P. Gahagan, 301
- The effect of topic importance and attitude similarity-dissimilarity on attraction in an intrastanger design by D. Byrne, O. London, and W. Griffitt, 303
- Sample size, likelihood, and confidence in a decision by G. F. Pitz (Vol. 8, p. 257)
- Sample size, confidence, and optimality: Reinterpretation of a previous study by D. J. Davis and M. D. Hart, 349
- Reply to Davis and Hart: Unlikely confidence in the size of a sample by G. F. Pitz, 350
- Anticipated reinforcement and attraction by W. B. Griffitt, 355
- The effect of group size on group information transmitted by F. W. Huff and T. P. Piantanida, 365

PHYSIOLOGICAL PSYCHOLOGY

- Age differences in the urinary 17-ketosteroid response to environmental stress by W. P. Paré and A. Livingston, Jr., 15

BRAIN LESIONS

- Body weight and food intake rhythms and their relationship to the behavior of cats with brain stem lesions by W. Randall and V. Lakso, 33
- Absence of latent learning in rats with hippocampal lesions by D. P. Kimble and E. G. Greene, 99
- Frequency and recency of reward and inferotemporal lesions by M. Wilson, L. Rothblat, and E. Kirstein, 237
- The effect of blindness of DRL-20 performances exhibited by animals with hippocampal destruction by L. W. Schmalz and R. L. Isaacson, 241

INTRACRANIAL STIMULATION

- Self-stimulation in pigeons: Tests of two alternative explanations by E. M. MacPhail, 3
- Extinction under intracranial and conventional reinforcement: Effect of a correlated counter by J. P. Huston, 25
- Effects of intraventricular carbachol and eserine on drinking by K. A. Khavari, P. Heebink, and J. Traupman, 93
- Tegmental brain stimulation as a UCS in conditioned response suppression by J. M. Morgan and J. C. Mitchell, 97
- Hypoxia and temporal aspects of hypothalamic self-stimulation by M. J. Gerben, 169
- A procedure to quantify hypothalamically elicited agonistic behavior in the cat by C. L. J. Stokman and M. Glusman, 325

DRUG EFFECTS

- Effects of magnesium pemoline on food and water intake in rats by W. J. Pizzi, C. S. See, III, and H. M. Kohn, 81
- Lack of effect of TCAP on conditioned avoidance learning in rats by L. S. Otis and G. T. Pryor, 95
- Are the cerebral ventricles involved in thirst produced by a cholinergic substance? by R. D. Myers and T. J. Cicero (Vol. 10, p. 93)
- Dose-response problem in testing the ventricular hypothesis: Reply to Myers and Cicero by A. Routtenberg, 106
- Effects of scopolamine on a "go-no go" avoidance task in rats by B. Meyers and A. K. Koenig (Vol. 9, p. 143)
- Comment by G. Bignami, 120
- Reply by B. Meyers, 94
- Magnesium pemoline: Facilitation of one way and two way avoidance learning by R. W. Thompson and G. R. Knudson, 155
- Effects of p-chlorophenylalanine on conditioned avoidance learning by K. Schlesinger, R. A. Schreiber, and G. T. Pryor, 225
- Scopolamine effects on a one-trial test of fear conditioning by H. L. Evans and R. A. Patton, 229
- Early environment and behavioral-biochemical response to trifluoperazine in monkeys by W. F. Angermeier, J. B. Phelps, H. H. Reynolds, and R. L. Davis, 231
- Magnesium pemoline: Effects on the learning and retention of a conditioned avoidance response by rats by J. E. McCarroll and S. F. Korbel, 233
- Effect of glucagon on learning an avoidance-escape response in the albino rat by H. A. Tilson and D. C. Cogan, 235
- Different temporal gradients of retrograde amnesia produced by metrazol or electroconvulsive shock by J. P. Kincaid, 329

BIOCHEMICAL CORRELATE

- Transfer of response bias by injection of brain homogenates: A replication by A. M. Golub and J. V. McConnell, 1
- Further positive transfer effects obtained through injections of brain homogenates by J. A. Dyal and A. M. Golub, 13

ANIMAL PSYCHOLOGY

- Visual behavior of the Mongolian gerbil (*Meriones unguiculatus*) by D. D. Thiessen, G. Lindzey, S. Blum, A. Tucker, and H. C. Friend, 23
- Spontaneous seizures in the Mongolian gerbil (*Meriones unguiculatus*) by D. D. Thiessen, G. Lindzey, and H. C. Friend, 227
- Behaviorally determined dark adaptation functions in the turtle, *Pseudemys* by H. Zwick and A. M. Granda, 239
- Recording of skin resistance in the unrestrained rat: A possible measurement of artifact by G. Walters and C. Tullis (Vol. 9, p. 27)
- Comment by D. Blizard, 340
- Reply by G. Walters and C. Tullis, 340

ACTIVITY

- Thigmotaxis in mealworms: Effects of barrier height and illumination by W. R. Street, 37
- Exploratory behavior: The inadequacy of activity measures by M. H. Sheldon, 38

MOTIVATION

- Depression of intake of nutrient by association of its odor with effects of insulin by D. Lovett, P. Goodchild, and D. A. Booth, 27
- Effect of urban environment on visual curiosity behavior in rhesus monkeys by S. D. Singh, 83
- Effects of early visual conditions on stimulation-seeking behavior in infant rhesus monkeys by C. A. Levison, P. K. Levison, and H. P. Norton, 101
- Effect of deprivation level on responses to novel alleys in albino rats by J. S. Cohen and L. J. Siettnier, 103
- The effect of drive on attention by J. G. Ford, M. D. Morris, and F. J. Bremner, 156
- Studies in comparative sugar preference in rodents: I. Methodology differences by M. W. Wagner, 160
- Studies in comparative sugar preference in rodents: II. Individual differences by M. W. Wagner, 161
- Food-restriction polydipsia in hamsters by C. L. Kutscher, R. D. Stillman, and I. P. Weiss, 243
- The effects of water and food deprivation on the heart rate of rats by S. Ashida, 245
- The consumption of a saccharin-glucose solution by satiated and food-deprived immature rats by J. W. Kakolewski, V. C. Cox, and E. S. Valenstein, 317
- Sexual exhaustion and recovery of masculine copulatory behavior in virilized female rats by R. E. Whalen and R. T. Robertson, 319

LEARNING

- The orientation reaction as a mediator of sensory preconditioning by E. R. Parks, 11
- Likelihood ratio evaluation of M-state models applied to individual choice sequences of successive reversal learning by W. F. Lowe, Jr. and J. Theios, 85
- Visual discrimination learning following single-stimulus training by J. B. Dusek and G. R. Grice, 105
- Proactive interference in a T maze brightness-discrimination task by D. A. Chiszar and N. E. Spear, 107
- Sensory preconditioning of a conditioned emotional response by S. R. Parkinson, 119
- An examination of the sensitivity of successive discrimination reversal (SDR) measures to differences in motivational level with squirrel monkeys by R. L. Gossette and J. Feldman, 157
- Psychology and pseudolearning by J. T. Williams, Jr., 159
- Reversal learning in an escape situation by J. T. Williams, Jr. and M. H. Scott, 177
- Stimulus control: Contrast, peak shift, and Konorskian models by G. Bignami, 249
- Position of delay and delay-associated cues in maze learning by E. E. Willis and J. M. Sawrey, 251
- Orienting behavior and discriminative proficiency of monkeys by W. A. Pieper, F. J. Chiaverini, and V. J. Polidora, 253
- Stimulus control in errorless discrimination by G. B. Biederman (Vol. 9, p. 375)
- Comment by J. W. Bernheim, 327
- Reply by G. B. Biederman, 328
- Same-different discrimination of horizontal and vertical stripe patterns in cats by J. S. Robinson, D. R. Metzger, and T. J. Voneida, 331
- The relationship of no light to the stimulus dimension of light intensity by L. A. Harris and M. R. Denny, 333
- Single alternation patterning without a trace for blame by J. M. Bloom and P. Malone, 335
- Solution of dimension abstracted oddity as a function of species, experience, and intelligence by P. N. Strong, Jr., P. Drash, and M. Hedges, 337

AVOIDANCE AND PUNISHMENT

- Delay of escape conditioning as a function of two kinds of secondary reinforcement stimulus conditions by J. B. Milby, Jr., 5
- Bar press and bar release as avoidance responses by D. Meltzer, 7

The effect of UCS intensity on learning and performance in instrumental aversive conditioning by G. Marsh and G. Walz, 9

Acquisition of stimulus control of bar-press avoidance behavior with guinea pigs by C. D. Webster and M. Walsh, 17

Self-punitive behavior and periodic punishment by R. C. Martin and T. L. Moon (Vol. 10, p. 245)

Erratum, 32

Behavior fixations maintained by pain and by fear by M. H. Kleban, 87

Reward responding under inescapable stress and later performance under stress by K. M. Shemberg, 117

The effects of bar-holding training and rapid ratio shaping on fixed-ratio escape responding by R. Norton, M. F. Daley, and P. C. Wolff, 165

Escape response distribution and discriminated avoidance of discontinuous shock by J. H. Hess and J. N. Shafer, 255

Operant rate of planarians as a function of time out from photic stimulation by F. T. Crawford, 257

The non-operant nature of the bar-press escape response by R. C. Bolles and D. B. McGillis, 261

Effects of a classical conditioned 'fear signal' and 'safety signal' on nondiscriminated avoidance behavior by N. E. Grossen and R. C. Bolles, 321

REINFORCEMENT

Extinction and reconditioning of behavior generated by a DRL contingency of reinforcement by D. E. Carter and L. J. J. Bruno, 19

On the discriminative function of the reinforcing stimulus by D. E. Carter and L. J. J. Bruno, 21

Goal gradient effect of incentive motivation (K) manipulated through prior goal box placements by P. C. Senkowski, J. J. Porter, and H. L. Madison, 29

Free-operant extinction as a function of magnitude of reward and number of reinforcements by K. Traupmann and J. J. Porter, 31

Effects of prefeeding in a fixed-interval reinforcement schedule by R. L. Shull and A. J. Brownstein, 89

Reinforcement control of "autistic" verbalization in the mynah bird by M. Rohrbaugh, W. C. Zaynor, and J. H. Grosslight, 91

Induced alcohol consumption through positive reinforcement by J. J. Persensky, R. J. Senter, and R. B. Jones, 109

Effects of visual reinforcer brightness and color on operant behavior of Siamese Fighting Fish by J. G. Grabowski and T. Thompson, 111

The effect of schedules of reinforcement upon the response rates of turtles by F. T. Crawford and P. M. Adams, 153

Varying reinforcement frequency on a percentage-reinforcement schedule by A. J. Neuringer, 163

Partial reinforcement and classical conditioning in two species of fish by E. R. Behrend and M. E. Bitterman, 167

Generalization of the partial reinforcement effect by M. E.

Rashotte, M. Ross, and A. Amsel, 173

The failure of stimulus-reinforcement spatial discontiguity to influence performance under optimal conditions of stimulus sampling by T. E. LeVere, 179

Start and goal speeds as functions of runway length by T. Clifford and C. Crouse, 181

Effects of partial delay of reinforcement following a small number of acquisition trials by J. C. Howlett and M. H. Sheldon, 259

Within ratio responding during fixed ratio performance by I. Barofsky and D. Hurwitz, 263

A partial reinforcement effect based on latent procedures in a choice situation by E. C. Jones, 305

Frustrative nonreinforcement of operant responding: Magnitude of reinforcement and response force effects by J. G. Carlson, 307

Effects of within-chain response delay upon post-delay operant performance by J. G. Carlson, 309

The effect of number of large reward training trials on behavior following incentive reduction by S. F. Davis and A. J. North, 311

Incentive reduction: Varied simultaneous reductions and subsequent responding by J. H. McHose, 313

The generalized PRE: Within-S PRF and CRF training in different runways, at different times of day, by different experimenters by M. E. Rashotte and A. Amsel, 315

Facilitated extinction of an avoidance response through shortening of the inter-trial interval by D. Oler and M. Baum, 323

Stimulus pre-exposure and instrumental learning by J. E. Ackil and R. L. Mellgren, 339

SOCIAL BEHAVIOR

Social feeding in domestic chicks: A test of the disinhibition hypothesis by C. W. Tolman and A. W. Wellman, 35

Killing of mice by rats prevented by early interaction between the two species by V. H. Denenberg, R. E. Paschke, and M. X. Zarrow, 39

Unconditioned aggression in the Japanese quail, *Coturnix coturnix japonica* by C. W. Middlebush, P. T. Mountjoy, and V. Riley, 113

Dominance-subordination polarity in early-handled and non-handled rats by G. Becker and I. J. Gaudet, 115

Reaction of monkey mothers to long-term separation from their infants by G. D. Jensen, 171

Imitative pecking in chicks as a function of early social experience by J. G. May, Jr. and D. Dorr, 175

Dominance in monkeys: Effects of social change on performance and biochemistry by W. F. Angermeier, J. B. Phelps, H. H. Reynolds, and R. Davis, 183

Social dominance and learning in the domestic chicken by D. K. Candland and D. H. Conklyn, 247
